

PRE-EQUIPPED CONDENSING UNITS

Low and medium high pressure applications.

KEY FEATURES AND BENEFITS

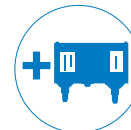

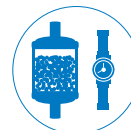

- ▶ Ready to connect
- ▶ Qualified
- ▶ Full range

- ▶ Time-saving during installation
- ▶ Expanded safety: 100% components controlled
- ▶ Selection and setting of the components made in factory

ACCESSIBLE COMPONENTS

- ▶ **Reliable Tecumseh compressor**
- ▶ **Compactness: integration from product design**
- ▶ **Complete equipment of the liquid line:**
 - a sight glass
 - a dryer filter
 - HP/BP pressure switch to manual and automatic reset
- + metric fitting for C/TAJN condensing units

APPLICATIONS

Walk-in cold rooms and display cases.
Fermentation rooms, reach-in, wine cellars, ice machines.

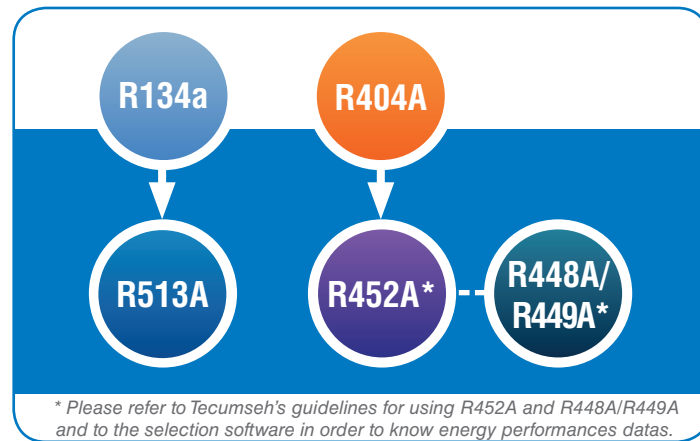

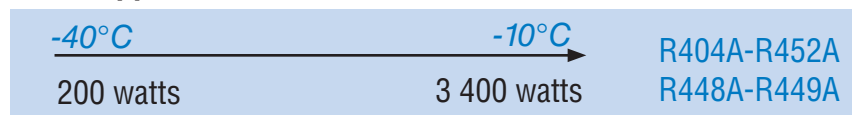

PRE-EQUIPPED CONDENSING UNITS

Low and medium high pressure applications.

POWER RANGE AND REFRIGERANTS

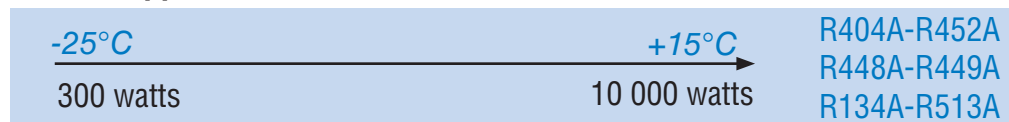

► LBP applications:

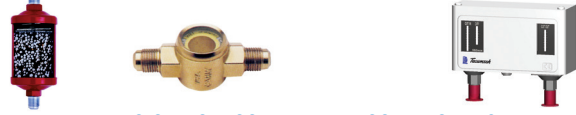

**To/Tamb conditions = - 30/32°C, SH = 10K, SR = 3K*

► MHBP applications:

**Conditions To/Tamb= -10/32°C, SH= 10K, SR= 3K*

RANGES

RANGES	VOLTAGE	EQUIPMENT
AE / AET	1~	 FILTER + SIGHT GLASS + PRESSURE SWITCH HP/BP AUTO-MANU
AJN / AJT	1~ - 3~	 FILTER + SIGHT GLASS + PRESSURE SWITCH HP/BP AUTO-MANU + KIT METRIC
FHT	1~ - 3~	 FILTER + SIGHT GLASS + PRESSURE SWITCH HP/BP AUTO-MANU
TAGT	3~	 FILTER + SIGHT GLASS + PRESSURE SWITCH HP/BP AUTO-MANU
