Subject: **GEN III Outdoor Condensing Unit and PLPH Unit Cooler Phase-Out**

Dear Valued Customer,

With the release of the next generation remote systems products (**Tecumseh ARGUS and Tecumseh designed by LU-VE**) along with the upcoming USA Department of Energy (DOE) and NRCAN Annual Walk-In Energy Factory (AWEF) regulatory standards, we are discontinuing all GEN III condensing units and PLPH unit coolers on December 31, 2019. These current remote systems products are not compliant with the DOE AWEF standards which means that they will no longer be produced in 2020.

As this transition occurs over the remainder of this year, there will be a cross list (where applicable) from GEN III/PLPH to ARGUS/Tecumseh designed by LU-VE. This cross reference is available from your Tecumseh sales representative and will be updated as we continue to release more product for the remainder of the year.

### **Description of Change and Timing**

Below is a comprehensive list of condensing units and unit coolers that will be discontinued. The model numbers that are shown below will be phased out over the next several months as new Tecumseh ARGUS and Tecumseh designed by LU-VE models are transitioned in. Additionally, our quick-ship program will continue to be active – but will be a mixture of new and legacy product lines as the transition is occurring.

### **Product Deactivation and Lead Time**

This transition is occurring as a running change. GEN III/PLPH inventory will begin to diminish over the next several months as we are working through this transition. As such, lead times will begin to increase on GEN III/PLPH units. If the GEN III/PLPH units are still active for production (with no ARGUS/Tecumseh designed by LU-VE cross) with no finished good inventory but parts are available, we will try to accommodate a 2-week lead time.

Furthermore, as ARGUS/Tecumseh designed by LU-VE models are released and we deplete inventory of crossed GEN III/PLPH units, we will then be deactivating these units.

### **Replacement Parts Support**

We will continue to support our customers for the foreseeable future with service replacement components such as compressors, fan motors, condenser coils, fan blades, etc for all the above item numbers. Stocking level of these components will not change from today.

### **Questions**

If you have questions that are not addressed in this bulletin, please contact your local Tecumseh Sales Representative or Technical Service Team (**800.211.3427**) members.
