TParts

Your online spare parts selection tool

User Guide

Cooling for a Better Tomorrow™

Starting with TParts

Welcome to the TParts user guide, your online solution tool for Tecumseh Europe spare part selection !

Thanks for taking a moment reading these few slides.

This guide is addressed to all desired professional and non professionals looking for spare parts in any Tecumseh Europe products sold since 2000 (30 millions S/N). TParts displays all spare parts included in Tecumseh Europe current offer*.

No installation required, automatic and transparent updates.

Intend of this manual is to clarify how to:

- Access to the tool
- Create your customized account
- Find spare parts
- Issue a spare part selection list
- Communicate your list to your supplier for ultimately placing order

*If a part is not displayed in TParts please address your request directly to your regular sales contact for an equivalent part solution.

Access to TParts

www.tecumseh.com

The screenshot shows the Tecumseh website homepage. At the top left is the Tecumseh logo. To its right is a search bar with the word "Search" and a magnifying glass icon. Below the search bar is a horizontal navigation menu with the following items: PRODUCTS, LIBRARY, APPLICATIONS, ABOUT US, CONTACT US, and WHERE TO BUY. The main content area features a large banner for "AJ² compressor, qualified for A2L fluids". The banner includes the text "Solution long-term, Low GWP (146), Low flammability" and a "More information" button. To the right of the text is an image of the AJ² compressor with a yellow circle containing "A2L". Below the banner is a "QUICK LINKS" section with six icons and labels: Wholesaler Locator, Selection Software, Cross Reference Tool, Reference Library, and TParts. A yellow callout box with an arrow points to the TParts icon. Below the quick links is a "PRODUCTS AND SUPPORT:" section with three product cards. The first card is for "SILENSYS Advanced, a sustainable solution" with an "A2L!" badge and a "SILENSYS Advanced" button. The second card is for "AJ² compressor, qualified for A2L fluids" with an "A2L!" badge and an "AJ² Compressor" button. The third card is for "CONDENSING UNITS" with the text "Tailor-made condensing units." and a "Condensing Units" button.

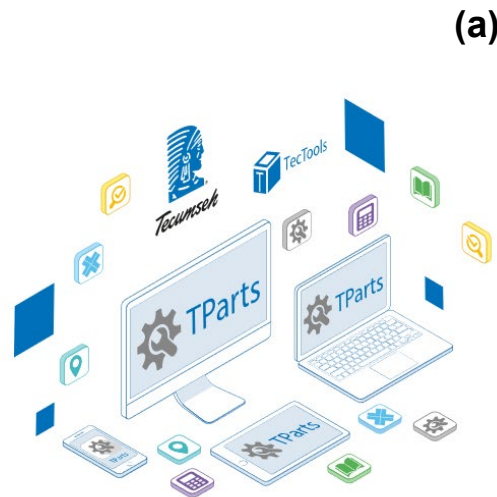

TParts icon is located on the central ribbon

Search for spare parts in TParts

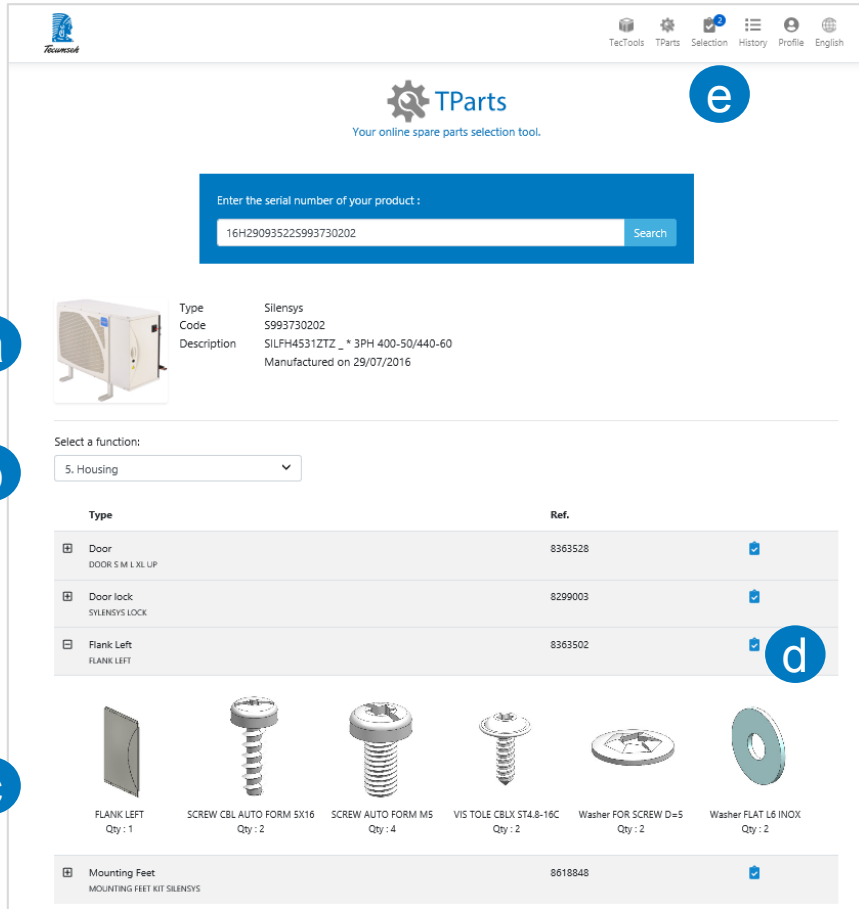

Enter the serial number of the product

- The search function allows the user on its computer or smartphone to find the spare parts by **typing in the serial number directly.**
- The serial number only can guarantee the correct selection of the spare part taking into account the evolution of bills of material. An identification by Serial Number which guarantees **the perfect replacement with traceability tracking**
- Examples of serial numbers:

Search result in detail

a **Finished Good information** (type, BOM, model and manufacturing date)

b For an **easy navigation** a drop-down list allows you to select spare parts **by function**:

- Refrigeration
- Ventilation
- Electrical
- Housing
- Control
- Hydraulic

c Spare Parts components **visual displayed** by clicking on the spare part**

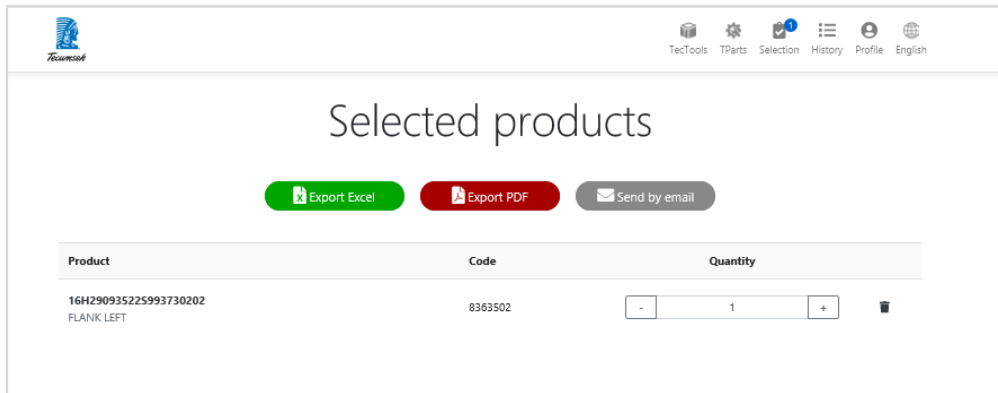

d Click to add the spare part to your **Selection List**

e Click on “Selection” to display your Selection List

Selection List History

Your selections are kept in an easily accessible history:
Profile / History

The screenshot shows the 'History of selections' page. At the top left is the Tecumseh logo. At the top right is a navigation bar with icons for TecTools, TParts, Selection (with a '2' notification), History, Profile, and English. The main heading is 'History of selections' with the subtitle 'List of your previous selections'. Below this, there is a list of two entries, each with a plus icon, a red document icon, and a timestamp:

- 9/3/2020 1:55:55 PM
- 9/3/2020 1:54:46 PM

How to save the TParts link on your mobile screen

On Android

Step 1: Visit TParts

The first thing to do is visit the page that interests you save as shortcut icon.

Step 2: Open the menu

When we have the page loaded, click on the **icon** at the top right of your screen party to leave the menu with all available options.

Step 3: Add it as a shortcut

On IOS (iPhone, iPad and iPod Touch)

Step 1: Visit the website and the page that interests you save as shortcut icon.

Step 2: Tap the middle icon

Tap the middle icon at the bottom of your screen.

Step 3: Add it to Home Screen

Now press the icon with a plus sign which reads **"Add to Home Screen"**.

Step 4: Choose how to name it

Choose how to name the shortcut and press **"Add"**.
