Subject: Tecumseh Inbound Shipments for LTL and Parcel Ground Shipments

Dear Shipper,

Please see the attached location listings and routing instructions that are to be followed for all collect, customer authorized and third party freight paid by Tecumseh Products Company LLC.

Effective Date: January 1, 2017

Small Package

All small package ground shipments from 1 to 149 pounds are to be routed via FedEx ground collect to Tecumseh Products Company. We require that the Tecumseh purchase order number appear on the FedEx label. Oversized packages that are over the weight break or require a pallet should be routed via one of our LTL carriers (see attached LTL state to state matrix).

When shipping Fed-Ex do not declare any value unless specifically instructed by a Tecumseh representative.

Less than Truckload

All LTL shipments from 150 to 12,000 pounds that are less than 17 linear feet are to be routed via one of our approved LTL carriers (see attached matrix's pages 4 to 9). Please make every effort to use our primary carrier before shipping with a secondary carrier. All shipments must have a packing slip and bill of lading with the shipment.

Truckload Shipments

For shipments over 12,000 pounds, 17 linear feet or greater than 1,000 cubic feet please contact Tecumseh Products Company LLC for routing instructions.
